

AXESS Logistics strengthens its position in Denmark

Press release from AXESS Logistics

13 October 2025

AXESS Logistics is expanding with a larger terminal facility in Fredericia, Denmark, offering the same comprehensive solutions as in Sweden and Norway.

The facility features a warehouse and workshop area of nearly 4,000 square meters and vehicle storage for nearly 25,000 square meters. Located in Fredericia next to the E20, it sits close to ports and the continent. The terminal is fully equipped with workshop facilities and AXESS Logistics will assume control of it from 1 November 2025.

Mats Eriksson, CEO:

“Through this establishment, we strengthen our presence in Denmark and can offer a comprehensive solution to our customers, as well as develop synergies between our operations in Sweden, Norway and Denmark. The facility will be a natural hub for AXESS flows between Scandinavia and the rest of Europe.”

Michael Fendinge Olsen, Country Manager, Denmark:

“We have long received requests to offer refurbishment, remarketing, and PDI services in Denmark. With this terminal, we gain a perfect transport solution for the Danish market.”

Magnus Karlsson, CCO:

“This establishment enables us to offer our customers a complete solution for Scandinavia, meeting their specific demands, especially regarding fleet sales.”
